FRONT COVER ILLUSTRATION:

Leadbeater's Possum.

Believed to be extinct for 50 years, it was rediscovered in tall mountain ash forests near Healesville. It is small, between 13 and 15 cm with a 20 cm tail, and is a very attractive animal with soft grey fur and a prominent dark stripe. It lives in wet eucalyptus forest and feeds on insects and nectar.

A.W.L.C. PRESIDENT'S MESSAGE

It gives me great pleasure to welcome everyone to Melbourne for the 1989 Senior National Championship series.

This year is an especially exciting time for Women's Lacrosse as the third World Cup draws near.

During the course of this Championship the Australian Team is to play a practice match against a team made up of players from each of the State teams. This match is to take place at V.F.L. Park, Waverley. Thanks to the assistance and support of the V.F.L.

This Championship, as well as the practice match, are important steps in the lead up to the World Cup in September.

I wish to thank the Victorian Women's Lacrosse Association for hosting this Championship on the Australian Council's behalf and extend the very best of luck to all participants.

May the best team win.

VIVIENNE GRANT

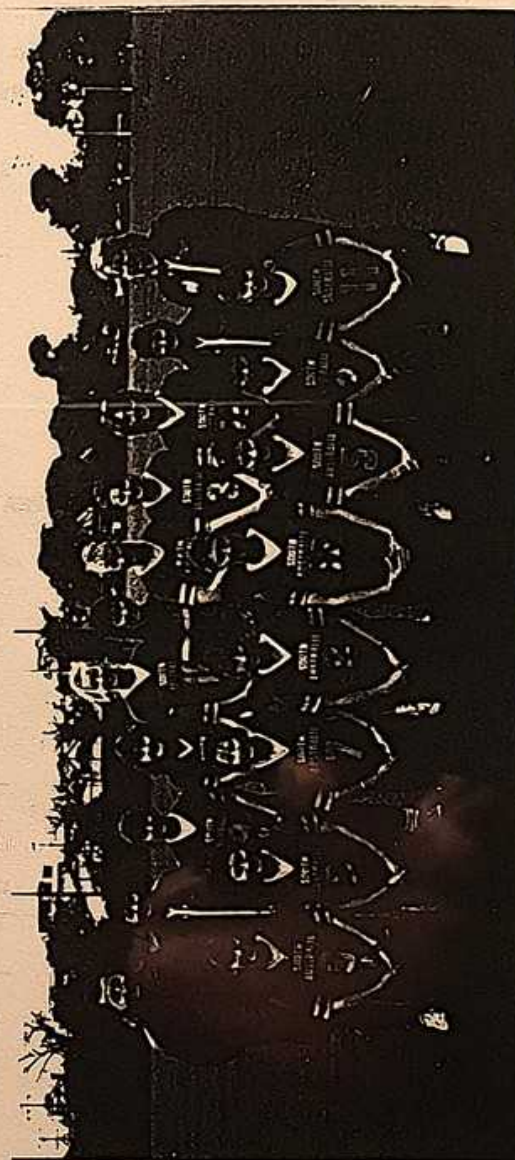

President
