DISCOVER the SPEED OF LIGHT

Strike with the speed of the Viper. The lightest stick on the market, the Viper takes the STX open high-wall concept to its highest power. Harder shots and faster stickwork are what you'll get with the Viper—a stick designed for top-level play that is built on speed and finesse.

TEST a NEW POWER SOURCE

Outmuscle the competition with the Dominator's powerful combination of strength and lightness. The STX exclusive "Super-Slat" open sidewall design provides lateral reinforcement to achieve rugged stiffness without sacrificing speed. The Dominator. No other stick can match its versatility.
