

EXPERIENCE the difference by driving fully imported Mazda 929. Driving 929 is the best way to appreciate the difference that sets Mazda apart.

The new electronic fuel injected 2 litre engine is a major breakthrough in the battle to achieve economy without sacrificing performance.

929 also has a computerised adjustable suspension system which can be 'soft' or 'firm' depending on personal preference and driving conditions.

As expected with cars of this calibre, central locking, power windows, air illuminated entry system, and fully adjustable steering

and seats are all standard equipment.

In the 929 range you have a number of options including an electric sunroof, 4 speed automatic with electronic override, 5 speed manual, 4 door Hardtop, 2 door Hardtop or 4 door Sedan.

Test drive 929 at your nearest Mazda Dealer.

Then you'll understand why Mazda has such a good name. Buy one and you'll also discover why Mazda Dealers have such a good name for after sales, parts and service.

Welcome

In extending a warm welcome to teams competing in the 1985 Australian Senior Lacrosse Championship I also congratulate you on being selected to represent your respective States.

Whether you are involved as a player, coach, manager, official, or in any other capacity, the honour of wearing your State colours is not something that is given lightly by any State, nor is it achieved without a lot of effort and dedication by those who are selected.

While only one team can emerge as victors in the competition for the magnificent Garland-McHarg trophy, I hope you will all be able to look back at these Championships and consider yourself honoured to have been given the opportunity to participate in them.

We look forward not only to top level lacrosse, but also to the renewal and creation of friendships with our compatriots with whom we share the common bond of lacrosse.

Best wishes to all participants for an enjoyable and successful Championship.

MALCOLM STOKES
